OUR SERVICES

"Complementary Pet Therapies" are a range of approaches aimed at enhancing the quality of life and improving wellbeing and can be used in conjunction with conventional veterinarian treatments. We treat animals of all sizes however our most popular patients are Dogs, Cats & Horses. The main services we offer are Acupuncture, Photonic Therapy and Massage which we combine all into one session.

At Fetch n Fun Daycare you have a unique opportunity to add a one of our holistic services whilst your doggy is in daycare, although services are not only for daycare clients.

Contact Fetch n Fun Wellness & Daycare centre now to book in for our next Clinic on 07 5532 8662.

OUR SERVICES AND HEALTH BENEFITS

Photonic Light Therapy (Red Light Therapy)

- Reduces pain by increasing endorphin production, a natural pain killer
- Reduces inflammation to suppress enzymes that create swelling, redness, pain and boosts the release of anti-inflammatory enzymes.
- Increases lymphatic drainage
- Increases Circulation
- Speeds the healing process by up to 70%
- Relaxes tight muscles & quickly releases muscle cramps

Massage

- Helps relieve age related problems
- Reverses muscle loss from inactivity or disuse
- Provides relief from muscle tension, soreness, spasms and weaknesses
- Provides relief from chronic pain & discomfort from arthritis, hip dysplasia, etc. through the release of endorphins
- Massage therapy provides emotional well-being for your fur baby

Acupuncture

- Acupuncture is performed by triggering specific points located along 14 major channels, which form a network that carries blood and energy throughout the entire body (Chi)
- Acupuncture produces a physiological response.
- It provides pain relief, stimulates the immune and nervous systems, increases micro circulation and decreases inflammation.
